DETAILED ACTION

Allowable Subject Matter

Claims 13-19 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 13 and 19, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an apparatus and corresponding method for measuring the index of refraction and the thickness of a transparent material, the measurement of the thickness of the sample being performed on a sample placed on a rotating stage by measuring the optical path of the system first, then obtaining the index of refraction of the sample from the optical path, these two values allowing for the determination of the thickness of the test sample, in combination with the rest of the limitations of the above claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley can be reached on 571-272-2800 ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
